

WHAT TO DO IN AN EMERGENCY

If you discover an emergency:

- > Stop what you're doing and shut your work down safely.
- > Alert the in-house officer to the emergency.
- > Follow the instructions given to you by personnel at all times.

If you find someone who has been injured:

- > Look for dangerous conditions that might cause another accident, and make them safe.
- > Alert plant personnel urgently.
- > Do not move the injured person.
- > Do not give water to an unconscious person.

IN CASE OF EMERGENCY

The ACCIONA Energía Renewable Energy Control Centre (CECOER) Emergency Hotline (injuries and/or environmental emergencies).

EMERGENCY INSTRUCTIONS

BASIC HEALTH, SAFETY AND ENVIRONMENTAL RULES

IES09_CAE07023 r01 | en

ACCIONA Energía wishes you a safe, productive visit. Please read this brochure carefully.

SAFETY AND ENVIRONMENTAL FRIENDLY RULES

Here is a list of the rules you must follow while you are at our HuertaSolar®.

BASIC SAFETY RULES

Speed is limited to 20 km/hour throughout the HuertaSolar®.

In the event of an electrical storm, leave the HuertaSolar®.

Do not approach areas where personnel are working.

It is prohibited to stop or park vehicles inside the turning radius of solar trackers.

It is prohibited to light a fire anywhere in the HuertaSolar®.

No photographs allowed except in authorized areas.

- > You must never remain at the facility by yourself without a responsible member of staff accompanying you.

SOLAR FARM SIGNS

Only personnel authorized by ACCIONA Energía may manipulate tracer components or gain access to meter and transformer sheds.

Only persons properly trained or accompanied by specialized personnel may manipulate any part of a tracker or anything at a shed.

Operators must always work in pairs, unless ACCIONA Solar authorizes a single individual to do the job.

PERSONAL PROTECTIVE EQUIPMENT

COMPULSORY HEAD PROTECTION

S O L A R F A R M

HELP US BE ENVIRONMENTALLY FRIENDLY

Do not litter or dump rubble or waste at our facility, and help us by picking up any rubbish you find.

Drive only on the established tracks. It is forbidden to drive along anything but designated paths at the HuertaSolar® and its access roads.

Do not pester any animals you come across or bother them by making noise, creating sustained vibrations or engaging in any other kind of behaviour that might disturb them.

Dumping chemical products is prohibited everywhere at this facility. In case of spillage, call the Renewable Energy Control Centre (CECOER).

Do not collect water from ditches or watercourses without express permission from the water authorities.

Use power and water rationally at the substations. Turn off the lights and close the taps when you have finished using them.

- > A HuertaSolar® generates clean, sustainable energy. We must be extra-careful to respect the environment in and around the site and to help keep the environment clean.
